

Welcome to Join Us

There are two clinical service brands under our company, viz. the Centre for Holistic Healthcare and the Kerry Fung and Associates Physiotherapy Services. We are committed to provide Chinese Medicine, Physiotherapy and other healthcare services with a holistic concept in health care and promotion. We have two clinics in Central and Mongkok on both sides of the harbour.

Our Hong Kong Clinic is located at the heart of Central District, in a well-known "Doctors' Building", Takshing House, right above the Central MTR Station. It occupies over 1200 square feet of floor space and has three independent consultation rooms, three treatment cubicles, exercise facilities, state-of-the-art physiotherapy modalities, contemporary concentrated Chinese medicine dispensary, as well as an all-round administrative, clerical and clinical support.

The Kowloon Clinic is located along side the Prince Edward MTR Station in Mongkok. It occupies the whole floor of the building with over 2000 square feet of floor space and independent toilet facilities. It has three independent consultation rooms and four treatment cubicles. Besides a whole range of physiotherapy modalities, exercise facilities, Chinese medicine dispensary, administrative, clerical and clinical support services, it also houses a large education centre which can be used for clinical and practical education for 30 people and lecture for 50 people. The education centre is equipped with advanced teaching facilities and can be turned into an exercise or dance studio. It has a full size wall mirror and is a perfect place for exercise, qigong or dance education.

We welcome Chinese Medicine Practitioners, Physiotherapists, Occupational Therapists, Massage Therapists, Osteopaths, Nurses, Energy Healers and other healthcare professionals to join us as our associates to provide healthcare or education services. The merits of our services are:

- Free working hours. All you need is to let us know in advance when would you be using our venue and facilities within our office hours or with special arrangement at after hours. You may arrange your time at will or to come to see patients only on appointments. This can provide you with maximum flexibility and freedom.
- There is no hidden fee. You don't need to pay us a penny after you become an associate. The company would only share with you when you see clients and have an income. This can help you to start your business with zero investment and develop your career with no risk.
- Our company would provide you with comprehensive services in appointments, shroff and finance, Chinese medicine dispensary and clinical assistance. You don't need to waste your energy and time in administrative matters, appointment making and other nitty-gritty stuff, so that you can concentrate in your healing career as well as your business and personal development.
- You are not bound by any unreasonable contract terms that may hinder your own business and professional development. Even if you decide to set up your own practice in the future, you do not need to worry about any unreasonable legal terms in our agreement that may give you any troubles.
- You may even use your own brand name to run your practice.

If you are a freelance worker, a professional with important family commitments, a healthcare provider who wants to develop your career in the private sector, or if you do not want those hassles of administration and business management to jeopardize your interest in healing and self-actualization, our service would definitely be your best support in your career.

If you are interested to join us as an associate, please email to associate@iholistic.org or call Miss Lau, our manager, at 25372089 to discuss with us how we could help you in your career.
